Hey Gord,

As we had talked on the phone, we don't know the exact cost, but based on our estimation height of 58'ft (\$1200) from the ground up. You will also have the cost of installing the tower, which is \$199. So the overall estimation would be roughly around \$1400. Which can be split over the course of 3-6 months.

You can pick any package, and we will take off 25% of each months service. This does apply to the residential, small business and commercial plans.

About the chargers, it depends on what plan you go with. We have Residential Plans, Small Business Plan, and Commercial Plans.

Here are a few of our most common residential packages. Note all packages include Unlimited data usage.

Residential Plans:

RES-6 Internet Service – 6Mbps download, 1Mbps Upload, \$55.00/month

RES-12 Internet Service – 12Mbps download, 3Mbps Upload, \$85.00/month

RES-20 Internet Service – 20Mbps download, 3Mbps Upload, \$115.00/month

RES-30 Internet Service – 30Mbps download, 3Mbps Upload, \$135.00/month

Small Business Plans:

SMB-6 Internet Service – 6mbps download, 6mbps upload, \$105.00/month

SMB-12 Internet Service – 12mbps download, 6mbps upload, \$145/month

SMB-20 Internet Service – 20mpbs download, 6mbps upload, \$185/month

Commercial Plans:

Comm-12 Internet Service – 12mbps download, 12mbps upload, \$195/month

Comm-20 Internet Service – 20mbps download, 20mbps upload, \$295/month

Comm-30 Internet Service – 30mbps download, 30mbps upload, \$395/month

Comm-50 Internet Service – 50mbps download, 50mbps upload, \$495/month

*** All plans require automatic monthly withdrawal from either a Credit Card or Bank Checking Account.
